Any item intended for publication
should reach this office not later
than Wednesday or we will be forced
to carry it over for the coming week.

PROGRAM—LOYALTY

1. Opening Songs
2. Prayer Pastor
3. Secretary's Report Bobbie Golden
4. Song
5. Loyalty to our Friends Mr. Parrott
6. Reading Miss Smith
7. Loyalty to our Church Sallie Messer
8. Quartette
9. Prof. Burnett, Herman Parker, Clarence Payton
10. Vocal Solo Ted Davis
11. A call to Loyalty Bobbie Golden
12. Sentence Prayers
13. Song
14. Benediction

This program will be rendered at
the Baptist Institute Sunday night
beginning promptly at 6:45. It has
been with some difficulty that our
organization has been kept going
since school was out. However we,
the officers, have decided that we
are going to make a big success of
our Union. Without cooperation
no president or set of officers can
make a "go" of anything. In our
town within easy reach of the
churches there are many young
people to keep a B. L. P. C., a
Christian Endeavor and an Epworth
League all going.

Sunday night we are going to put
forth every effort to give you not
only a hearty welcome but a pro-
gram that will mean something to
you. If you are in a position to in-
fluence some young person to come
to our program and if you don't
feel that you have the gift, or your
friends would do well to take ad-
vantage of such an opportunity you
can forget it but if, on the other
hand, you believe that it would do
your children or friends good en-
courage them to join. Come and
bring them.

While this is a meeting expressly
for young people we like to have
the older folks present. In behalf
of the B. L. P. C. I cordially invite
you and your friends to attend this
program. Yours, respectfully,
J. H. O. E. A. M.

J. H. O. E. A. M.

The J. H. O. E. A. M. gave a
Fourth of July picnic at Swan Pond
with a large crowd in attendance.
There was a interesting program
with speeches by Judge Hamper,
Harris Davis and Mrs. Jim McDon-
ald. Two ball games were pulled
off by J. H. O. E. A. M. and Artemus
and Swain teams. J. H. O. E. A. M.
won over Artemus by a score of 9
to 3 but Swain beat them by
two points. The basketball started
with a home run in the last half of
the 9th inning giving the score to
the Juniors.

P. D. Black ran a small advertise-
ment in the Advocate and states it
sold an auto. If you have anything
that others may want and you do
not wish to keep, try a little ad.
It pays.

HEALTH DEPENDS ON Rich, Red Blood

Weak, watery, thin blood is
not able to rebuild good body
tissues—it is impoverished. For
health and strength you must
enrich your blood. Increase
the red blood corpuscles, and
purify your blood with the standard
blood purifier—S. S. S. Thousands of
people in a weak, run-down condition
have been benefited by taking S. S. S.

PRELIMINARY TRIAL OF JIM REESE LEWALLEN

The preliminary trial of Jim Reese
Lewallen, charged with the killing
of Richard Ferguson at Bryants
Store, was held Saturday. The only
evidence brought forward was that
of the Commonwealth, the defense
which is in the hands of Sawyer A.
Smith, reserving its evidence. De-
fendant was allowed out on bail of
\$10,000.00.

ARKLE SHOOTING TRIAL

The trial of John Troutman, Jess
and Joe Smith in connection with
the shooting of Jeff Mills at Arke-
mus as he and others came out of
a mine recently was held Saturday
morning, Sawyer A. Smith for the
defense. The jury returned a ver-
dict of not guilty.

INSTITUTE PASSES SOME RESOLUTIONS

The Institute on Monday passed a
resolution favoring the taking of the
office of State Superintendent out of
politics and another resolution fa-
voring the ten cent emergency fund
to take care of an increase in the
salaries of the poorer counties of
the state.

GEO. DAD HAMMONS HAS LEFT KNOX COUNTY

Sheriff B. P. Walker reports that
Geo. Dad Hammons is reported to
have left this section. It is also
said he was seen by a citizen of
Knox County in Corbin April 4th
leaving for Laurel County that day.

A careful search of the neighbor-
hood has been made, people have been
interrogated, but no one has been
found who will definitely state that
he has seen him. It is even hinted
that he has gone into Canada.

Sheriff Walker has tried to secure
his photograph to broadcast over the
country, but has not been success-
ful. If anyone knows of this man's
whereabouts he is urged to let Sher-
iff Walker know.

LOGAN INFIRMARY NOTES

Mrs. J. H. Black was operated on
Saturday and is doing well.

Elizabeth Blackburn was operated
on Monday for appendicitis.

Lee Broughton underwent an ap-
pendectomy Saturday.

A. L. Meyers was taken to the in-
firmery after a serious accident. He
was riding on the engine when a
baby rabbit appeared on the track.
A. L. Fred, but the shot entered his
foot—not the rabbit's. An X-ray ex-
amination disclosed the fact that al-
tho the wound was a nasty one it
is not of a lasting or serious nature.

Mrs. Ethel Owens, of Teague, had
her tonsils removed Saturday.

EPISCOPAL SERVICE ON SUNDAY MORNING

Dr. J. J. Crompton, of the Episcopal
Church, will hold Divine Worship in
the Presbyterian Church on Sunday
morning at 11 o'clock. All members
and friends are urged to be present.
It is hoped to be able to continue
these services every third Sunday.

METHODIST SERVICES

The pastor, Rev. John Owen Gross
will preach at the morning hour, 11
o'clock. He will also be the speaker
at the Union Services in the even-
ing at the Presbyterian Church.
Sunday School convenes at 9:45.

We are anxious to greet you at
our services. A man who attends
church draws with him his family
and his friends, gives new courage
to those doing church work and has
the satisfaction which comes to a
man when he does his duty.

BIG METHODIST RALLY

A meeting for all the Methodists
and friends in this vicinity will be
held on the campus of Union College
the first Sunday in August. There
will be services in the morning and
afternoon. Every Methodist in the
County is expected to be present.
Dinners are to be brought in bas-
kets and the big part of the day is
to be spent in Christian fellowship.
Remember the date and watch for
more information.

FREEZING FRUIT TO HELP PRESERVATION

Method Has Passed Experi-
mental Stage in West.

Practice is to be Recommended in
Sections Where There is Surplus
and Sufficient Cold-Storage
Space Available.

(Prepared by the United States Depart-
ment of Agriculture.)

Preserving fresh fruit by freezing
has passed the experimental stage in
the Middle Western and Pacific states.
The office of preservation of fruits
and vegetables, bureau of markets,
has been investigating the new meth-
od for several years and the investi-
gators report that such fruits as
strawberries, raspberries, logan ber-
ries, blueberries, currants and cher-
ries are now being frozen and held in
commercial lots.

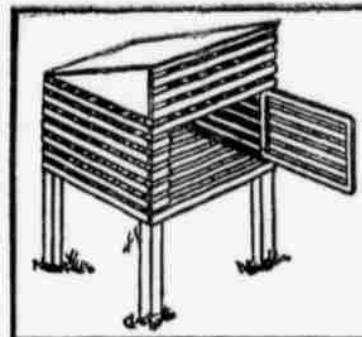

So far as the process is concerned,
this method of preservation has all
the merits of simplicity. The fruit is
frozen in the same crates in which it
is marketed. The temperature re-
quired is about 10 degrees F., though
soft fruit is usually subjected to a
lower temperature than that of bet-
ter quality. So long as the tempera-
ture is maintained the fruit can be
kept in storage. The frozen product
must be used as soon as it is thawed,
however, as thawing breaks down the
tissues and allows the fruit to decay
rapidly.

In ice cream, or when made into
pies and preserves, the frozen fruit is
in every way comparable to the fresh
product. In preparing their report the
representatives of the United States
Department of Agriculture state that
the practice is to be recommended in
sections where there is a surplus of
production and sufficient cold-storage
space available to accommodate the
fruit. Only fresh, sound fruit should
be frozen. Freezing does not do away
with mold, though mold will not de-
velop as long as the fruit remains at
the temperatures employed.

TREATMENT OF BROODY HEN

Large and Unnecessary Loss in Sum-
mer Production of Farm Flock
Can Be Prevented.

There often is a large and altogether
unnecessary loss in the summer pro-
duction of the farm flock, due to the

Coop for Broody Hens.

Idleness of numbers of broody hens
which are permitted to remain on the
nests indefinitely and so are unpro-
ductive for many weeks. If such hens
are removed from the nest as soon as
broodiness develops, are placed in a
comfortable coop, and well fed and wa-
tered, they usually can be broken up
promptly.

There is nothing better than the
coop shown here. It is made of pine
boards. The floor should be about a
foot from the ground. The sides and
floor are made of slats spaced one-half
to three-quarters of an inch apart.

CULTIVATION IS IMPORTANT

Work Neglected in Garden Often
Means Poor Vegetables and Then
Very Few of Them.

The mistake of waiting till one has
time to spare to cultivate the garden
has too often meant poor garden vege-
tables, and few of them. The garden
should be cultivated when the soil is
in the proper condition and when the
vegetables need it. It should not wait;
it is as important as any other farm
work and more important than most
of it.

HARMFUL TO PASTURE WOODS

Practice Has Been One of Chief
Causes of Deterioration—Young
Growth Destroyed.

Pasturing of woods has been one of
the chief causes of their deteriora-
tion. The severity of the damage de-
pends largely on the number of stock
and the size of the woods. One char-
acteristic of a heavily pastured woods
is the almost complete absence of
young growth, or its existence only in
small ragged patches as broken or
scrubby stuff.

GIVE BREEDING FLOCK CARE

Watch Fowls Carefully and See That
They Are in Good Condition,
Advise Specialists.

Watch the breeding flock carefully
and see that the fowls keep in good
breeding condition, the United States
Department of Agriculture advises. In
Farmers' Bulletin 1116, on the selection
and care of poultry breeding stock,
The birds and houses should be
examined to see that they are not
infested with lice or mites.

Here's why **CAMELS** are
the quality cigarette

BECAUSE we put the utmost quality into this
One brand. Camels are as good as it's pos-
sible for skill, money and lifelong knowledge of
fine tobaccos to make a cigarette.

Nothing is too good for Camels. And bear this
in mind! Everything is done to make Camels the
best cigarette it's possible to buy. Nothing is done
simply for show.

Take the Camel package for instance. It's the
most perfect packing science can devise to pro-
tect cigarettes and keep them fresh. Heavy paper
—secure foil wrapping—revenue stamp to seal
the fold and make the package air-tight. But
there's nothing flashy about it. You'll find no
extra wrappers. No frills or furbelows.

Such things do not improve the smoke any more
than premiums or coupons. And remember—you
must pay their extra cost or get lowered quality.

If you want the smoothest, mellowest, mildest
cigarette you can imagine—and one entirely free
from cigarettey aftertaste,

It's Camels for you.

Camel
